

# CAPACITOR

## Capacitor

**Capacitor**, San Francisco's interdisciplinary dance company, has become renowned for their conceptually-rich and bound-breaking performances. **Capacitor** artists collaborate with members of the scientific community to create mind-expanding, heart-gripping live performance. Obsessed with the mechanics of the human body as well as machines that propel the body through space, **Capacitor** artists have become masters of rigging systems, designers of wearable sculpture couture, and engineers of large-scale props designed to stretch the limits of physical poetry.
