

The Latin Perspective

The Latin Perspective

The Latin Perspective is a thoroughly professional and highly skilled group specializing in Latin Jazz, which includes contemporary Brazilian, Caribbean, Afro-Cuban, and standard Latin genres. They have many years experience playing in every imaginable venue and in a variety locations. This group is unique because they provide an alternative to the jazz trio/quartet playing the same overplayed standard jazz tunes. The music of The Latin Perspective, in contrast, has a certain flair, beauty, and rhythmic excitement which is the Latin experience.
